

JAZEREEL LYDIA GOH REIKO

(65) 9672 3481 – reikolydia@reikolydia.sg – www.reikolydia.sg

Possesses the willingness to learn and takes on challenges enthusiastically. Able to multi-task effectively and efficiently, learn quick on the spot, prioritize and perform under stress and pressure. Highly self-motivating, adaptable to situations and surroundings and is also comfortable working with both individually and in a team.

EXPERIENCE

SIEMENS SG

ANOTECH ENERGY

2022 – PRESENT

METRICS VALIDATOR

- Verification of Business Intelligence's logic and metric definitions.
- Used a combination of Python and SQL queries (HIVE) to extract large datasets of varying data types for data manipulation.
- To analyze, understand, troubleshoot and debug problems in the existing software and data in order to implement fixes to achieve the required data output goals in a timely fashion.
- Participated in a Scrum/Agile style of daily and weekly reporting. Includes collaborative use of JIRA, Confluence, GitLab.
- Designed System Integration and User Acceptance Tests (SIT/UAT) to ensure all output data is shown in accordance with the System Requirements and Design Specifications (SRS/SDS).
- Part of the REAMS (Rail Enterprise Asset Management System) project working in tandem with LTA and ST Engineering.

KEYSIGHT SG

AUDACIX PTE LTD

2021 – 2022

AUTOMATED SOFTWARE TESTING CONSULTANT

- In charge of converting human manual tests cases to computer automated testing using Keysight developed software, Eggplant Functional and Selenium WebDriver.
- Eggplant Functional requires its programming language SenseTalk, which required minimal learning on my part.
- Involved with assisting to troubleshoot and debug some of Keysight's human machine interface softwares, using C#.
- Participated in a Scrum/Agile style of daily and weekly reporting. Includes collaborative use of JIRA, Confluence, Git.
- Designed User Acceptance Tests (UAT) to ensure converted automated test cases and results match previously human manual testing.
- Implemented negative testing to cover unknown out-of-scope inputs and results.

OCBC BANK SG*COMTEL SOLUTIONS***2020 – 2021****TEST ANALYST**

- Software testing of bank applications on iOS, Android and major desktop web browsers.
- Assisted to set up, test and implement the new Equities function on the platform.
- Participated in a Scrum/Agile style of daily and weekly reporting. Includes collaborative use of JIRA, Confluence.
- Set up and shared automation scripts and macros to enable quick use of internal banking applications that include, but are not limited to, the setting up of accounts.
- Tested and implemented the new SGQR functions on the mobile application. A sample of this implementation is at:
 - <https://reikolydia.sg/emvco-sgqr-generator>
- Involved with other various forms of testing, including but not limited to: stress testing, negative testing, UAT.

COVID-19 SUPPORT HPB SWABBER / HEALTHCARE ASSISTANT*HEALTH PROMOTION BOARD**RAFFLES MEDICAL GROUP***2020**

- Frontline COVID-19 swabbing operations.
- Maintaining and updating the national COVID-19 database.
- Temperature screening using various thermal scanning equipment.
- Assisting duty nurses in quarantine procedures across various locations in Singapore.
- Volunteered to prevent the entering and additional spread of COVID-19 in Singapore.

VENTURE PTE LTD SYSTEMS TESTER*BEYONDSOFT INTERNATIONAL***2019**

- Testing of specialized micro-electronics for Human Machine Interfaces (HMI).
- Generating new methods of testing new hardware.
- Testing was done using purely Linux, which necessitated the writing, testing and implementation of bash scripts.

RAZER SG*BEYONDSOFT INTERNATIONAL***2018 – 2019****TEAM LEADER**

- Managing a peak of about 30 testers and other test team's leaders in total.
- Participated in a Scrum/Agile style of daily and weekly reporting. Includes collaborative use of JIRA.
- Designed new manual UAT test cases for new hardware and software.
- Assisted to automate some manual test cases using, but are not limited to, Excel Macros, AutoHotkey.
- Directly liaising with Razer's engineers to solve problems and provide testing feedback.

HP SINGAPORE

BEYONDSOFT
INTERNATIONAL

2018

SOFTWARE TESTER

- Testing of prototype printers' software and hardware.
- Capturing, documenting and recreating both known and unknown defects and bugs.
- Much of the testing involved hard probing using oscilloscopes and other equipment, which includes a freezer and an oven at one point.
- As testing is mostly manual, tools to increase automation were used. That included Excel Macros and AutoHotkey.

MANUFACTURING TECHNICAL SPECIALIST INTEGRATION TECHNOLOGY LTD

i.PAC
MANUFACTURING
CASEM (ASIA)
AMS MICRON

2016 – 2018

- Primarily in the semiconductor manufacturing industry, involved in the setting up of machines used to process semiconductor chips.
- Assembly, testing and calibration of silicon wafer pick and place machines.
- Much of the testing involved a cleanroom environment, which did add an additional layer of acclimatizing.
- Additional assembly, testing and calibration of chip scanning machine vision 3D cameras.
- Often deployed to customer sites like AMS Micron to assist in setting up and troubleshooting the silicon wafer machines.

2014

DISTINCTION FOR INDUSTRY TRAINING PROGRAM

2006 / 2005

OUTWARD BOUND: BRUNEI / SINGAPORE

2005 / 2003

National Junior Robotics Competition - EXCAVATION SURVEY TEAM: H2O / BERMUDA TRIANGLE

SKILLS

LANGUAGES

ENGLISH: Both Written and conversational

CHINESE: Conversational

INFORMATION TECHNOLOGY

Major Operating Systems: Windows (and Servers), Mac, various Linux distros

Microsoft Office Suite: Word, Excel, Outlook, PowerPoint, OneNote, Visio, VBA Macros

TECHNICALITIES

MS Visual Studio: 2013, 2020, 2022, Code

Google Web Designer, Microsoft WebMatrix, WYSIWYG Web Builder

Adobe Creative Suite 2022: Photoshop, Premiere Pro, After Effects, Audition, Lightroom, Bridge, Media Encoder

Autodesk: AutoCAD, Inventor Professional

MP Lab IDE, Levi Studio, Siemens LOGO!Soft, ModBus

PROGRAMMING LANGUAGES

Codes mostly available on GitHub

C++, C#, C

Python

MySQL, HIVE

OS Scripting: Batch, PowerShell, Bash, AutoHotkey

Visual Basic

HTML, JavaScript, PHP, CSS, Sass, Markdown

Eggplant SenseTalk

NOTABLE OTHERS

Atlassian JIRA, GitLab, GitHub, TortoiseSVN, Subversion, SourceTree, Selenium

SurveyCraft, CMT1000, Woodward Smart View, Interwoven TeamSite, Mediabin

Serato ScratchLive, VirtualDJ, Ableton Live, Sound Forge Pro, FL Studio

CryEngine 3, Unreal Engine 4, Cheat Engine, HxD Hex Editor

VNC, TeamViewer, RDP, Barrier

Docker, Portainer, NGINX, Apache

Grafana, Prometheus

Jupyter: Lab, Notebook, Hub

INTERESTS

ROBOTICS	Programming, Artificial Intelligence, Big Data, Fabrication, Assembly and Testing.
IT & NETWORKING	Has successfully designed and put in place an active 10Gb/s fiber network. Am designing and building a portable touch screen 4G/LTE Wi-Fi router using a Raspberry Pi.
3D DESIGN	Mechanical and Electrical 3D Solids Design.
MULTIMEDIA	Mixing Music, Making Videos and Special Effects.
GAMING	Making Mods and Finding Exploits.
SPORTS	Cycling, Stunts and Long Distances.
OTHERS	Enjoy coming up with new ideas to improve life (think-tank style).
